# GREEK AND ETRUSCAN

# VASES;

FORMED BY

THAT DISTINGUISHED ANTIQUARIAN

# SIGNOR GIUSEPPE BASSEGIO,

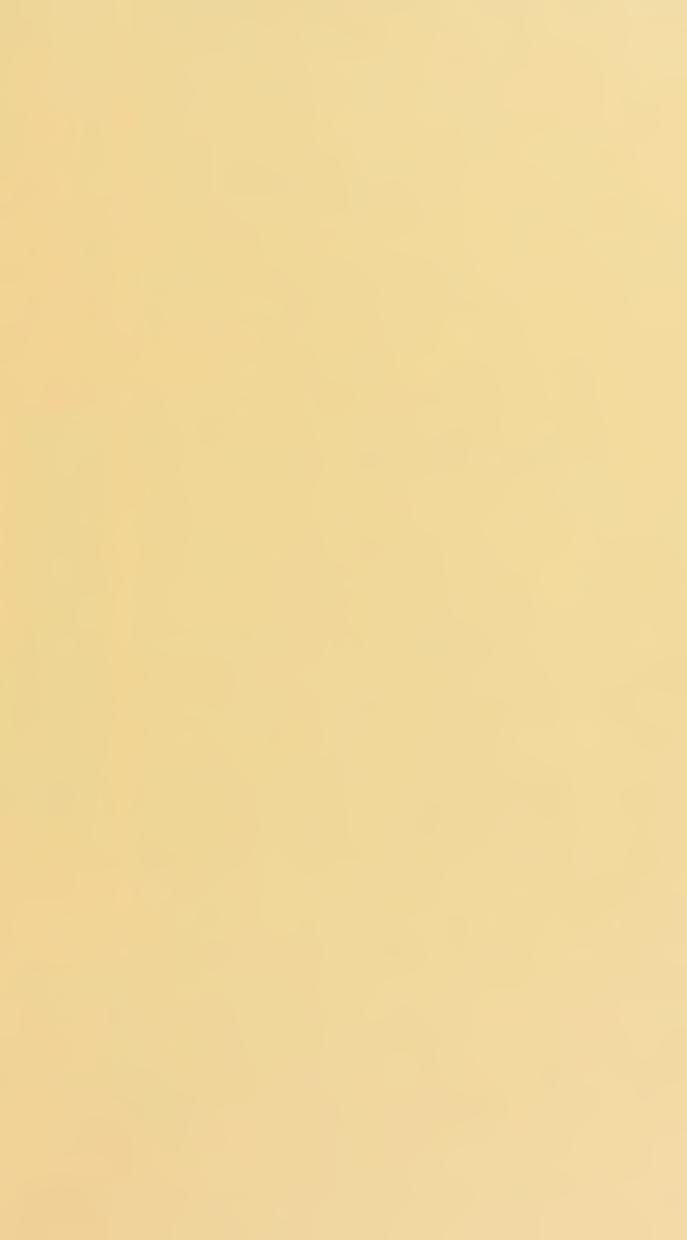

OF ROME.

This very interesting and beautiful Collection comprises some of the very finest and most recherché specimens of ancient Etruscan workmanship, which have been brought to light under the auspices of Signor Giuseppe Bassegio, and from which source were formed the well known and partly dispersed collections of M. Durand and other distinguished antiquarians. The rarity of these Vases being found in a perfect state is well known; and it should therefore be observed, that many in the present collection are as fine and perfect as when first manufactured.

It is admitted by all classes of collectors of objects of the Fine Arts, that, up to the present period, no branch of antiquarian research is generally attended with so much expense as that branch which includes the specimens contained in the following Catalogue. The chief cause of this may briefly be stated to have been the extreme rarity of the objects themselves in such a state of perfection as to entitle them to the consideration of the virtuoso.

The success which has, however, attended the more recent excavations in Italy, has, fortunately, to a certain extent, contributed to remove this difficulty; so much so, that objects of the same description as those which were formerly purchased with avidity at large prices, the proprietor of the present collection is enabled to offer for less than one-fourth of the prices they formerly produced.

This circumstance enables many admirers of the Fine Arts to become possessors of the most beautiful objects of antiquity, which had heretofore been excluded from their cabinets. There are few objects of antiquity that afford greater or more constant pleasure to the antiquarian than the present. Equally remarkable for the elegance of their form and the purity of their design, they constitute at once the most classical specimens of *Vertu*, and one of the most desirable and distinguished ornaments of the drawing room, the library, or the boudoir.
